

Women in Engineering Insight Experience

January & February 2023

Apply now for our 2023 Women in Engineering Insight Experience

Are you thinking about your apprenticeship options, but not sure what route's right for you?

Why engineering?

It might not be something you've considered, but a BAE Systems engineering apprenticeship gives you the opportunity to build valuable skills, gain new experiences, and work while you continue to learn – a solid foundation to help launch your future career.

Still not sure?

Then make sure you apply for our **Women in Engineering Insight Experience**. Taking place over four days early next year, you'll get a sneak-peak into what an engineering apprenticeship is all about, and get to visit our sites. And if you like what you see, you could be offered a full-time position on one of our engineering apprenticeships, starting in Autumn 2023.

What our participants said:

"The best thing about the experience was going on site, learning lots of new skills and meeting loads of people that knew a lot about apprenticeships and BAE Systems, it really helped to get a better understanding."

There are a limited number of slots, so scan the QR code to apply now.

About BAE Systems

We're one of the UK's leading STEM employers, bringing together 35,300 professionals nationwide across engineering, aeronautics, technology, procurement, project management and many more. Like you, we're passionate about helping young people embrace STEM subjects and discover careers in engineering and technology.

Together we can inspire bright minds from all backgrounds to access opportunities in our industry. At BAE Systems we serve, supply and protect those who serve and protect us – and provide opportunities for our 2,000 apprentices in learning to find a place to build meaningful careers.
